Director General                                           Konstantin G. Palnikov

Text of CL:  
We hereby inform that the Rules for the Classification and Construction of Sea-Going Ships shall be  
amended as specified in the Appendices to the Circular Letter.

It is necessary to do the following:  
1. Bring the content of the Circular Letter to the notice of the RS surveyors, as well as interested  
organizations and persons in the area of the RS Branch Offices' activity.  
2. Apply the provisions of the Circular Letter during review and approval of the technical documentation  
on ships as well as equipment installed on board the ships contracted for construction or conversion on  
or after 01.04.2022.

List of the amended and/or introduced paras/chapters/sections:  
Part XI: paras 19.2.4.1.2 and 19.2.4.2.3

Person in charge: Mikhail A. Iukhnev

PART XI. ELECTRICAL EQUIPMENT

19 REQUIREMENTS FOR ELECTRICAL EQUIPMENT PROCEEDING FROM SHIP PURPOSE¹

1. Para 19.2.4.1.2 is replaced by the following text:

"2. simple electrical apparatus and components (for example, thermocouples, photocells, strain gauges, junction boxes, switching devices, included in intrinsically-safe circuits of category (ia), not capable of storing or generating electrical power or energy for ignition of explosive mixture even in case of disconnection, short circuit or earth fault in the intrinsically-safe circuit, as well as complying with IEC 60079-14.".

2. Para 19.2.4.2.3 is replaced by the following text:

"3. simple electrical apparatus and components (for example, thermocouples, photocells, strain gauges, junction boxes, switching devices, included in intrinsically-safe circuits of category (ib), not capable of storing or generating electrical power or energy for ignition of explosive mixture at normal operating conditions, as well as complying with IEC 60079-14;".

¹ Simple electrical apparatus and components that have been classified and certified as intrinsically-safe according to IEC 60079-14.
