REVISION HISTORY
(purely editorial amendments are not included in the Revision History)

For this version, there are no amendments to be included in the Revision History.
Automation equipment of the ship's machinery and installations is covered by the requirements of Sections 1 — 3, Part XV "Automation" of the Rules for the Classification and Construction of Sea-Going Ships¹.

Under all conditions of the ship operation without permanent attendance of machinery spaces, automation of machinery installation shall comply with the requirements of Section 6, Part XV "Automation" of the Rules for the Classification. The amount of monitored parameters and types of automatic protection of machinery and installations may be reduced.

¹ Hereinafter referred to as "the Rules for the Classification".
